

steering consoles

Outhill provide a comprehensive range of stylish and practical Centre Steering Consoles manufactured from marine quality G.R.P. All consoles are designed to maximise the potential area for mounting steering and navigational equipment and incorporate storage and extra seating on some models.

CC15

CC16

CC15 and CC16 simple and stylish centre consoles with colour co-ordinated G.R.P. cowl feature which are popular with the Avon Adventure range. CC15 suits boats of 4m and larger, whilst it's little sister the CC16 will suit smaller boats.

CC21/SS
A very popular arrangement which provides a practical combination of a centre console with an upholstered side seat/ storage unit. The console face provides ample room for mounting instrumentation and features a compass mounting incorporated within the moulding. Both console head and seat cushion are hinged for easy installation/ maintenance of instruments and access to the storage space beneath.

CC21/SS

Model pictured with optional backrest

CC20/FS

CC20/FS
A forward seat version of CC21/SS is also available using the same head and base unit configured in a different manner.

CC9

CC9
A functional centre console with ample room for instrumentation.

Model	Max depth	Max Width	Max height	Seat height

steering consoles

CC12/FS

CC12/FS One of our most popular models the CC12/FS is guaranteed to stand out from the crowd. This console incorporates a stylish colour co-ordinated twin cowl feature. The dual control panel allows for maximum installation of steering/ navigational equipment and provides a central position ideal for compass mounting.

Additional features

Vented front compartment ideal for battery installation

CC14/FS

For those who like a windscreen for that high speed ride. The model incorporates a heavy duty Perspex windscreen available in 2 heights, with a polished stainless steel rail. The top of the unit is hinged for ease of fitting/ maintaining instruments.

Additional features

Vented front compartment ideal for battery installation
Windscreen available in 2 height, high (pictured)/ low

CC14/FS

CC19/FS

CC19/FS is a most stylish new edition to our split console range. This model provides maximum space for instrumentation and controls, and the over hang design provides plenty of leg room.

Additional features

Vented front compartment ideal for battery installation

CC22/FS

CC22/FS is a variation on our popular CC19/FS. The CC22/FS has been designed with a recessed front mounting area which allows for the easy installation of hydraulic steering systems which are so popular on RIBS today.

Model	Max depth	Max Width	Max height	Seat height
CC12/FS	94	92	102	50
CC14/FS	94	92	155 high screen 135 low screen	50
CC19/FS	122	92	142	52
CC22/FS	122	92	142	52
